As a special case, Vehicle No. 20 was allowed to complete events separately than the event dates. The performance of the specific vehicle is adjusted considering the advantages and human errors.

For endurance, the laps for the vehicle has been calculated till 01:33:00 and 2 laps has been reduced (i.e 4 has been considered instead of 6) for getting an advantage of a free track. Teams can reach out to us for video proof if they want.
